HADLEY AI | INTELLIGENCE CREATES OPPORTUNITY

AI-native deal sourcing

From Proprietary Data to Proprietary Deal Flow

Hadley helps investors and strategic buyers identify the right targets, map available opportunities, and run disciplined omnichannel outreach to source more deals.

1 Build the dataset

Hadley ingests fragmented public, proprietary, and research-driven data sources to create a structured target universe.

DATA SOURCES	COMPLETED
Business licenses State & local government	READ 2,000
Dealer networks Manufacturer & distributor	INGESTED 1,226
Professional licenses State regulatory data	DUPLICATES REMOVED 602
Proprietary research Market & industry data	VERIFIED 658

2 Map the market

We visualize available opportunities across geographies, sub-sectors, and priority markets.

3 Prioritize the best opportunities

Targets are enriched, qualified, and ranked so teams know where to focus first.

TARGET QUEUE — 3,244 TARGETS
